

Medical Management Institute

Dedicated to the Business of Healthcare

## Custom Training

On-Site, Instructor-Led Webinar, On Demand and Hybrid Training. We will customize your training specific to your needs and budget.

# ? The Problem

Practices face enormous pressures and struggle with accurate, timely coding and billing. Errors with clinical documentation, coding, billing and compliance can cost tens of thousands of dollars in loss revenue and an increase in reimbursement holdbacks and penalties. Lack of education training has a direct effect on cash flow.

In order to reduce cost and increase revenue, MMI will identify your problem areas that are inhibiting you from getting maximum reimbursement and tailor a training program that fits your time & budget.

# The Solution

MMI has trained over

# 250,000

students

" Our agency has been working with MMI since 2004, their commitment to excellence and their expertise in creating on-site custom training to suit our needs has been exceptional. You hear of agencies stating they will meet the needs of your company, but working with the MMI team they've exceeded that by addressing the direct needs of our agency's coders by creating a customized E/M course that is specifically personalized to the way we do business."

St Louis County Dep. of Public Health

# About MMI

MMI is an organization that nationally provides support on a variety of levels with focus on the socio-economic issues of the practice. Clients include small to large physician groups, clinically integrated networks, community health centers, health systems and academic institutions. MMI provides consulting, training and management services to private practices, physician associations, hospitals, medical societies, managed care organizations, managed services organizations, and accountable care organizations across the nation to improve their patient satisfaction, profitability, staff morale, government compliance and business operations.

"MMI is great to do business with. We require staff to be certified within a year of employment, so I work with MMI closely. Their test is tough but fair, and service is always excellent."

MD Billing Services, LLC

## Years of Training Experience

"Rhonda was always full of energy and our physician practices never left her sessions without learning something new. She is a wealth of knowledge and is positive, engaging and dedicated to the profession. Always a delight!"

The Woodlands Medical Center

# Instructors

No class is effective without superior instructors and MMI only hires the best. MMI's instructors are highly seasoned, subject matter experts with National Certifications and a minimum of 10 years teaching in the industry. All instructors have practical hands on experience and are assigned to projects based on their expertise. All MMI instructors are passionate about healthcare and are very friendly and hands on. They genuinely want to see their students succeed!
